

Industrial wiring devices include male plugs, male inlets, female connectors, female receptacles and interlocks.

Heavy Industrial applications including: mining, energy, shipyards and welding

Russellstoll[®] MaxGard[®]
Solutions range from 30-400 Amp

Hubbell[®] UL1686
Solutions range from 30-200 Amp

Light Industrial applications including: data centers, food preparation, temporary power and marine

IEC-60309 ABB[®], PCE[®] and Hubbell
Solutions range from 16-125 Amp

Russellstoll DuraGard[®]
Solutions range from 20-60 Amp

Mechanical Interlocks required by NEC for separate disconnects within sight of all motor loads

Available for MaxGard, UL1686, IEC-60309, and DuraGard.

Applications requiring safe disconnects including: data centers and factory equipment

Hubbell Hubbellock[®]
Solutions range from 20-60 Amp

Applications in factories and laboratories with many circuits of varying ratings and frequencies

Hubbell Non-NEMA
Solutions range from 10-30 Amp

Applications requiring quick disconnects and speed without damaging equipment

Hubbell Midget
Solution is 15 Amp
